CORRECTION

Paediatric Neurology. 3rd edition. Edited by T. W. Farmer. Philadelphia: Harper & Row. 1983. Pp 768. £61.00

In the review of the above book (*Journal*, February 1984, **144**, 222–23) it was commented that at the price quoted it was excellent value for money. The reviewer has since learned that the book costs £61.00, and at such a price he would be unable to recommend it to psychiatrists. He would suggest that they photocopy pages of interest, and instead of congratulating the publisher for such good value would comment that £61.00 is an outrageous price to pay for a medical book.
